### Troubleshoot computer problems

Click on a task to automatically troubleshoot a Search box.

The screenshot shows the 'Troubleshoot computer problems' page in Windows 8. It lists four tasks: 'Programs', 'Hardware and Sound', 'Network and Internet', and 'System and Security'. The 'System and Security' task is highlighted with a light blue background and a mouse cursor pointing to it. The 'System and Security' task includes the sub-link 'Fix problems with Windows Update'.
